## Questionnaires

# The Continuous Improvement Map

# - Questionnaires

## A Survey:

- ❑ A data collection method used to gather information from a selected group of people.
- ❑ Used to collect written or verbal information.
- ❑ **Involves all aspects of the research process:**
  - Survey design and construction.
  - Data collection planning.
  - Data collecting.
  - Data processing.
  - Response analysis.

What are the common methods used to conduct surveys?

# - Questionnaires

## A Questionnaire:

- ❑ Consists of a set of written questions.
  - ❑ Used to collect information about a particular issue of interest.
  - ❑ Used to gather qualitative and quantitative information.
  - ❑ Often used in research and statistical studies.
- 
- ❑ **Allows to capture:**
    - A large amount of information.
    - In a short period of time.
    - From a large number of individuals.
    - Without spending much effort.

# - Questionnaires

- ❑ **Questionnaires are commonly used in:**
  - Marketing research.
  - Organizational behavior research.
  - Academic research.
  - Quality and process improvement initiatives.

# - Questionnaires

# - Questionnaires

## How to Construct a Questionnaire:

- ❑ Clearly define the goal of the questionnaire.
- ❑ Identify the specific information need to be collected.
- ❑ Identify the target respondents.
- ❑ Determine the relevant sampling method.
- ❑ Choose the questions type and the measurement scales.
- ❑ Draft the questionnaire and sequence the questions.
- ❑ Conduct a pilot test then finalize the questionnaire.
- ❑ Send out the questionnaire to the respondents.
- ❑ Collect, compile then analyze the results.

# - Questionnaires

## Basic Rules:

- ❑ Avoid making assumptions about the respondents.
- ❑ Use short questionnaires.
- ❑ Use clear understandable wording for all educational levels.
- ❑ Use positive statements and avoid asking emotional questions.
- ❑ Questions should not be biased or leading the participant towards an answer.
- ❑ Remember to include contextual questions.
- ❑ Avoid questioning more than one question per item.
